Information is subject to change without notice. Northern Telecom reserves the right to make changes in design or components as progress in engineering and manufacturing may warrant. This equipment has been tested and found to comply with the limits for a Class A digital device pursuant to Part 15 of the FCC rules, and the radio interference regulations of Industry Canada. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at their own expense.

Meridian Integrated RAN Description, installation, and operation

Revision history

April 1997

Standard, release 1.00. Initial release.

Contents

About this document	1
Description	3
System overview	3
MIRAN description	4
MIRAN design characteristics	7
MIRAN capacity expansion	9
Functional description	10
Software architecture	10
Hardware architecture	12
Mechanical characteristics	13
Faceplate connectors and indicators	16
MIRAN backplane connections	18
MIRAN reset and self-test functions	21
Built-in monitoring functions	23
MIRAN expansion and upgrade	23
Upgrade using the PCMCIA cards	24
Expansion using multiple MIRAN cards in a LAN	25
Software security	28
Security overview	28
Security device	28
Keycode	30
Engineering guidelines	30
System compatibility	30
MIRAN equipment	31
External equipment	35

Engineering a MIRAN RAN and music application	37
Installation and administration	41
Installation overview	41
Installation preparation	42
Unpacking and inspection	42
Taking inventory	43
Locating the card slot	43
Verifying MDF wiring	43
MIRAN equipment installation	47
Installing MIRAN cards into the IPE module	48
Connecting a terminal to the MIRAN in the IPE module	50
Connecting an external audio device	53
Connecting multiple MIRAN card	56
Option 11E/11C MIRAN installation and terminal connection ...	60
MIRAN configuration	62
RAN activation and route selection	62
Music-on-hold activation and route selection	67
Configuring telephone set-based OA&M access	69
Configuring the MIRAN trunk characteristics	71
Configuring Option 11C pass-through mode	72
Configuring Option 11C for CEMUX access	73
Configuring the terminal for terminal-based OA&M access	74
MIRAN administration	74
RAN application security	74
Software security	75
RAN installation	78
MIRAN card administration	79
Music sources	84
Card-level administration	84
Command files	85
RAN upgrades	85
Backups	89
Restoring configuration	90

RAN Application:	
Telephone set-based OA&M	91
General steps in configuring and using the telephone set	91
Telephone set-based interface	92
Restrictions on telephone set-based OA&M access	93
Using the telephone set	94
Login	94
Menu operation	94
Assigning a message	95
Message selection	96
Playing a message	96
Recording a message	96
Deleting a message	96
Playing the 8-digit security device ID	97
Voice prompts	98
Telephone set-based OA&M flowcharts	99
 RAN Application:	
Terminal-based OA&M	107
General steps in configuring MIRAN	107
Description of terminal-based OA&M	109
Logon screen	110
Status screen	111
Setting up telephone set-based OA&M access	112
Main Menu	113
RAN Administration	116
Message Commands	117
Assign Message	118
List Assignments	119
Copy Assignments	120
Clear Assignments	121
Record Messages	122
Play Message	123
Convert Message File	124

Operational Statistics	126
Backup Configuration	127
Restore Configuration	128
Playback Levels	129
Run Batch Files	130
MIRAN Administration	131
File Commands	132
List Files	133
File Display	134
Copy File	135
Delete File	136
Rename File	137
Move File	138
Keycode Entry	139
Software Upgrade	140
System Information	141
OA&M Access Configuration	142
Maintenance and Diagnostics	143
Password Change	144
Password Change - User Password	145
Password Change - Distributor Password	146
MIRAN OA&M command set	147
OA&M Command summary	148
OA&M Command Syntax	151
Message Commands	152
File Commands	155
Miscellaneous Commands	158
MIRAN Batch File Support	160
Special Features	161
Playing different messages at different times	161
Setting up emergency messages quickly	163
Maintenance	165
Maintenance overview	165
Diagnostic tools	166

MIRAN fault isolation and correction	170
MIRAN fault isolation using the menu system	172
Card replacement	174
Appendix A: Codes and interfaces	177
Sound recording configuration	177
MIRAN hexadecimal codes	178
MIRAN interface connectors	180
DID configuration for telephone set-based OA&M access	181
Modem setup	187
Appendix B: Product integrity	189
Reliability	189
Environment specifications	189
Electrical regulatory standards	191
List of Terms	195
Index	203

Tell us what you think...

This is your document. Nortel wants it to work well for you.

Please take a few minutes to answer the questions on the other side of this page. Fax it back to us at the number provided, or mail it to the address below.

Your comments will be used to make improvements.

Thank you. We appreciate your time and consideration.
